Our Story

On February 20, 1998, Kyle and Robyn Raphael lost their 5-year-old son, Keaton, to a deadly childhood cancer known as Neuroblastoma (cancer of the nervous system). Keaton's nine-month battle included very aggressive treatments including seven cycles of chemotherapy, numerous surgeries, high-dose body irradiation and two bone marrow transplants.

In March 1998, the Raphael's founded this Memorial in Keaton's honor to create awareness about this devastating disease and make a positive impact in our community for other families fighting the battle through; Education, Advocacy, Research, and a Patient Care Fund.
